PC TECHNOLOGY

ML500 EVO

NEW GENERATION
OF LABELLERS

ML500 Standard *EVO*

Multifunctional display with touch screen and labeller for tickets and labels
Labelling machine with 80mm head

CHARACTERISTICS

Type	Counter top labelling display
Housing	Stainless steel
Display	12" touch screen on vendor side, 9" touch screen on customer side
Print	80mm labeller
Connections	Gbit Ethernet. USB 2.0 and 3.0. RS-232. Audio output. VGA (Optional WiFi).
O.S.	Linux Ubuntu 24.04. Available Windows 10 LTSC.
Memory	RAM SO-DIMM DDR4 8 Gb. Storage SSD 256 Gb.
Dimensions	24.1 x 33 x 33.5 cm (W x D x H x H)
Weight	9Kg

The constant evolution in labelling technology has led us to witness a remarkable transformation in the already outstanding ML 500 labeller. This device, known for its reliable performance, has undergone a re-styling process that goes beyond a simple aesthetic renovation.

The ML 500 labeller, in its new and improved version, stands out for its label and ticket output, which incorporates a cutter that cuts directly through the paper.

It prints 60mm or 80mm wide labels or tickets with no length limit, configurable from our ENCASE ticket and label software.

Possibility to print paper formats:
• Standard continuous ticket roll
• Standard adhesive label roll
• Adhesive continuous paper roll

ML500 Linerless *EVO*

Multifunction display with touch screen and linerless labeller
Linerless labeller with 60mm labelling head

CHARACTERISTICS

Type	Counter top labelling display
Housing	Stainless steel
Display	12" touchscreen display vendor side, 9" customer side
Print	60mm Linerless labeller
Connections	Gbit Ethernet. USB 2.0 and 3.0. RS-232. Audio output. VGA (Optional WiFi).
O.S.	Linux Ubuntu 24.04. Available Windows 10 LTSC.
Memory	RAM SO-DIMM DDR4 8 Gb. Storage SSD 256 Gb.
Dimensions	24.1 x 33 x 33.5 cm (W x D x H x H)
Weight	9Kg

The ML 500 with Linerless labeller has arrived to transform the way labels and tickets are printed.

With a 12-inch display for the vendor and 9-inch for the customer, this labeller offers an unparalleled visual experience. Plus, its compatibility with Linux or Windows systems ensures seamless integration with your work environment.

Print labels or tickets up to 60mm wide with unlimited length configurable from our ENCASE ticket and label software and now also in linerless format.

Possibility to print all paper formats available on the market:
• Standard continuous ticket roll
• Standard adhesive label roll
• Adhesive continuous paper roll
• Linerless roll (ECO adhesive paper type, elimination of waste in printing).

With this type of paper it is possible to print labels of variable length, depending on the data to be printed, which leads to a drastic reduction of paper.

In addition, the roll can be changed in seconds thanks to the "Easy Load" quick-loading system.

By choosing the ML 500 Linerless labeller, you are not only optimising your labelling process, you are also actively contributing to the environment by reducing packaging and generating less waste!

ML500 Linerless Pro *EVO*

Multifunction display with touch screen and linerless labeller
Linerless labeller with 80mm labelling head and autocutter

CHARACTERISTICS

Type	Counter top labelling display
Housing	Stainless steel
Display	12" touch screen on vendor side, 9" on customer side
Print	80mm Linerless Pro labeller with autocutter
Connections	Gbit Ethernet. USB 2.0 and 3.0. RS-232. Audio output. VGA (WiFi optional).
O.S.	Linux Ubuntu 24.04. Available Windows 10 LTSC
Memory	RAM SO-DIMM DDR4 8 Gb. Storage SSD 256 Gb.
Dimensions	24.1 x 33 x 33.5 cm (W x L x H)
Weight	9Kg

The ML 500 with Linerless Pro labeller has arrived to transform the way labels and tickets are printed.

With a 12-inch display for the vendor and 9-inch for the customer, this labeller offers an unparalleled visual experience. Plus, its compatibility with Linux or Windows systems ensures seamless integration with your work environment.

The new ML500 indicator printer prints at a speed of up to 250mm/s, with a resolution of 203 dpi (640 dots/line) and features an auto-cutter.
It is valid for labels or tickets from 58 to 80mm wide and a maximum paper roll diameter of 100mm, with no length limit configurable from our ENCASE ticket and label software and now also in linerless format.

Possibility to print all paper formats available on the market:
- Standard continuous ticket roll
- Standard adhesive label roll
- Adhesive continuous paper roll
- Linerless roll (ECO adhesive paper type, elimination of waste in printing).

With this type of paper it is possible to print labels of variable length, depending on the data to be printed, which leads to a drastic reduction in paper consumption.

In addition, the roll can be changed in a matter of seconds thanks to the 'Easy Load' fast-loading system. The printer slides on a rail, making it easy to remove and clean.
